PROFESSIONAL SUMMARY

2 years of experience as a DevSecOps and Cloud Specialist with expertise in Azure, Infrastructure as Code (IaC), and secure CI/CD pipelines. Skilled in building scalable, secure, and automated cloud solutions using tools like Terraform, Azure Pipelines, and GitHub Actions, with integrated security practices using Tfsec, TFLint, TruffleHog, and Terratest.

TECHNICAL SKILLS

Cloud Platform: Microsoft Azure, AWS

Containerization & Orchestration: Docker, Kubernetes (AKS) IaC

& Config Management: Terraform, Ansible

CI/CD & Version Control: Azure DevOps, GitHub Actions, Jenkins, Git, ArgoCD

DevSecOps & Code Quality: Tfsec, TruffleHog, TFLint, SonarQube, Terratest, OpenCost

Monitoring & Observability: Prometheus, Grafana, ELK Stack, Azure Monitor Operating

Systems & Scripting: Linux (Ubuntu, RedHat), Bash, Python, PowerShell

EXPERIENCE

Associate DevOps Engineer

Nov 2024 – April 2026

Team Computers Pvt. Ltd.

Gurugram, Haryana

- **Provisioned & Managed Azure Infrastructure:** Deployed scalable Azure resources (VNets, VMs, NSGs, Storage) using modular **Terraform (IaC)** across Dev, QA, and Prod environments.
- **Automated CI/CD Pipelines:** Built and maintained automated infrastructure deployment workflows using **Azure DevOps** and **GitHub Actions**, streamlining cross-team release processes.
- **Integrated DevSecOps Practices:** Embedded **Tfsec**, **TFLint**, and **TruffleHog** into pipelines to enforce code quality, proactively resolve misconfigurations, and prevent secret leaks.
- **Implemented Azure Landing Zones:** Configured core networking, security, and governance resources utilizing IaC best practices like reusable modules and remote state management.
- **Optimized Operations & Version Control:** Managed **Git/GitHub** branching strategies and troubleshoot cloud infrastructure issues to ensure high availability and reliable delivery.

Internships

Analyst Intern

Oct 2023 – Dec 2023

YBI Foundation

Remote

- Analyzed complex datasets using **SQL** and **Python (Pandas, NumPy)** to extract meaningful insights.
- Developed automated data cleaning and preprocessing scripts, reducing manual effort by **30%**.
- Collaborated with cross-functional teams to create interactive dashboards in **Tableau**, facilitating data-driven decision-making processes.

Machine Learning Intern

June 2023 – July 2023

Learn & Build

Remote

- Implemented **machine learning algorithms** to analyze data sets and derive insights.
- Conducted exploratory data analysis (EDA) and data preprocessing using **Python** libraries (e.g., **Pandas, NumPy**).

CERTIFICATES / ACHIEVEMENTS

- **Client Appreciation Award:** Received recognition from clients for delivering secure, scalable, and cost-optimized cloud solutions using Azure and OpenCost.
- **Best Innovation Award:** Honored for introducing automation frameworks using Terraform, Terratest, and GitHub Actions, significantly reducing deployment time and manual effort.
- **Certifications:** Python (Kaggle), Big Data (NASSCOM), Machine Learning Enterprise (C-DAC).

EDUCATION

Hindustan College Of Science And Technology

Mathura, India

Bachelor of Technology - Computer Science And Engineering (72%)

Dec 2020 – July 2024

Sanskriti Public School

Intermediate and High School
